

Study Monitoring Questionnaire

**CGSS**

1a. Please enter the name of your institute and your country:

Institute:

Renmin University of China  
Hong Kong University of Science and Technology

Country:

China

1b. Please enter the name of the principal investigator and your contact person for questions about the study:

Principal Investigator:

Bian Yanjie,

Contact Person:

Li Lulu

2a. What kind of institute fielded the module?

An institute principally doing market research

An institute principally doing academic research

An institute doing both market and academic research

Other (please write in details)

---

2b. Which institute carried out the fielding?

PI's institute itself

OR

Institute name:

All China Strategic Research (ACSR)

3a. Was the questionnaire fielded ...

only in English  → Question 39

in English plus other language(s)  → Question 3b

only in translation  → Question 3b

3b. Please enter the language(s) the module was fielded in.

*Please write in: Language 1 to Language X*

Chinese

4. Was the questionnaire for language 1 ...? (If you used more than five languages, please report on the five used by the most respondents.)

a written translation (a questionnaire/application)  → Question 5

an oral translation (interviewer translated on the spot)  → Question 11

5. Who carried out translation 1? Please tick all that apply.

A member or members of the research team

A translation bureau

One or more specially trained translators

Other (please write in details)

---

6. Was translation 1 checked?

Yes  → Question 7

No  → Question 8

7. How was translation 1 checked?

Group discussion

Expert checked it

Back translation

Other (please write in details)

*Please write in:*

8. Was the translation 1 questionnaire pre-tested?

Yes

No

9. Were there any questions, sections, words or concepts which caused problems when translating into language 1? Please tick all that apply.

No problems  → Question 11

Answer scales

Instructions

Whole questions

Words or concepts

Other (please write in details)

*Please write in details of problems checked/ticked above:*

10. What did you do about any problems in translation 1?

*Please enter details:*

11. Was the questionnaire for language 2 ...? (answer only if you have two or more translations/languages, otherwise continue with question 39)

a written translation (a questionnaire/application)  → Question 12

an oral translation (interviewer translated on the spot)  → Question 18

12. Who carried out translation 2? Please tick all that apply.

A member or members of the research team

A translation bureau

One or more specially trained translators

Other (please write in details)

---

13. Was translation 2 checked?

Yes  → Question 14

No  → Question 15

14. How was translation 2 checked?

Group discussion

Expert checked it

Back translation

Other (please write in details)

*Please write in:*

15. Was the translation 2 questionnaire pre-tested?

Yes

No

16. Were there any questions, sections, words or concepts which caused problems when translating into language 2? Please tick all that apply.

No problems  → Question 18

Answer scales

Instructions

Other (please write in details)

*Please write in details of problems checked/ticked above:*

17. What did you do about any problems in translation 2?

*Please enter details:*

18. Was the questionnaire for language 3 ...?(answer only if you have three or more translations/languages, otherwise continue with question 39)

a written translation (a questionnaire/application)  →Question 19

an oral translation (interviewer translated on the spot)  →Question 25

19. Who carried out translation 3? Please tick all that apply.

A member or members of the research team

A translation bureau

One or more specially trained translators

Other (please write in details)

---

20. Was translation 3 checked?

Yes  →Question 21

No  →Question 22

21. How was translation 3 checked?

Group discussion

Expert checked it

Back translation

Other (please write in details)

*Please write in:*

22. Was the translation 3 questionnaire pre-tested?

Yes

No

23. Were there any questions, sections, words or concepts which caused problems when translating into language 3? Please tick all that apply.

No problems  →Question 25

*Please write in details of problems checked/ticked above:*

38. What did you do about any problems in translation 5?

*Please enter details:*

39. What data collection methods were used for the module (substantive and background questions)?

Face-to-face

Self-completion (with some interviewer involvement in delivering or collecting)

'Mixed mode': part self-completion, part face-to-face (please write in details)

Other (please write in details)

*If 'mixed mode' or other, please write in:*

40. Were postal or telephone components used at any point (e.g., advance contacts)?

Yes - postal  → Question 41

Yes - telephone  → Question 41

No  → Question 42

41. Please give details of the postal and/or telephone components.

*Please enter details:*

42. Were incentives offered?

Yes

No

43. How was the study fielded in your country?

As an individual survey (that is, the EASS was the whole survey)  → Question 46

As part of a larger survey  → Question 44

44. Please provide information about the other stud(ies) the EASS was fielded with (e.g., topic, survey name).

*Please enter:*

General Social Survey of China

45. What was the approximate position of the EASS in the larger questionnaire?

Start of questionnaire

Middle of questionnaire

End of questionnaire

46. Were the substantive questions in the EASS study all asked in the prescribed order?

Yes  → Question 48

Yes, apart from omissions  → Question 47

No  → Question 47

47. Why was the question order changed?

*Please enter:*

Some questions on respondent background duplicated with those in general survey.

48. Were all the core questions included in your questionnaire (by core we mean all required substantive and background questions)?

Yes - all substantive questions and background questions included  → Question 50

No - substantive question(s) missing  → Question 49

No - required background question(s) missing  → Question 49

49. Please provide details of the questions missing and indicate why they are missing.

*Reason(s) why missing:*

Here we ask questions on sampling.

50. First, was your sample designed to be representative of ...

Only adult citizens of your country?

Adults of any nationality residing in your country?

51. Second, was your sample designed to be representative of ...

Only adults living in private accommodation?  → Question 52

Adults living in private and in institutional accommodation  
(e.g., residential homes for the elderly, asylum accommodation)?

If private and institutional, please enter details in box below.

*Please enter in:*

52. Third, what was the lower age cut-off for your sample?

WRITE IN :

53. Was there any upper age cut-off for your sample?

Yes - please write in cut-off

No cut-off

54. Were any groups excluded or under-represented in your sample design, apart from the age cut-offs or citizenship requirements just asked about?

No

Yes (please write in details)

*If yes, write in details:*

55. Did you use any variables for stratification?

Yes  → Question 55

No  → Question 56

56. Please describe the stratification variables used?

*Please write in:*  
First-state PSU: according to the economic geographical stratification

57. How many of stages does your sampling design have?

One stage

Two stages

Three stages

Four stages

58. Does your sampling frame consist of...?

Addresses

Households

Named individuals (the target persons)

Named individuals (not the target persons)

Areas

Something else (please write in details)

---

59. Please describe your sampling frame (e.g., population register, electoral roll, telephone directory and its coverage and updating).

*Please write in:*

Registration information provided by local government

60. Please describe your sampling method and your sampled units for the first stage?

*Please write in:*

4-stage PPS sampling. First stage: district (qu) and county

61. Please describe your sampling method and your sampled units for the second stage?  
(only if you have two or more stages, otherwise continue with question 64)

*Please write in:*

4-stage PPS sampling. Second stage: street, town and township

62. Please describe your sampling method and your sampled units for the third stage?  
(only if you have three or more stages, otherwise continue with question 64)

*Please write in:*

4-stage PPS sampling. Third stage: neighborhood committee and village  
committes

63. Please describe your sampling method and your sampled units for the fourth stage?  
(only if you have four stages, otherwise continue with question 64)

*Please write in:*

4-stage PPS sampling. Fourth stage: household

64. What selection method was used to identify a respondent?

Please tick all that apply. (do not answer if your sampling frame consists of named individuals  
- which are the target persons. Then continue with question 66)

Kish grid

Last (or next) birthday

Quota

Other (please write in details)

---

65. Please describe your quota procedures. (only if you used quota, otherwise continue with question 66)

*Please write in:*

66. Was substitution or replacement permitted at any stage of your selection process  
or during fieldwork?

Yes  →Question 67

No  →Question 68

67. Please provide details of the substitution or replacement procedures used.

*Please write in:*

During field work, if a interviewer failed interviewing the targeted household, he/she can choose the household who lived on the right/left of the failed case.

68. All in all, what are the known limitations (biases) of your net sample? For example: is there differential coverage of particular groups, either because of sample design or response differences?

*Please write in:*

Bias on sampling composition

69. Please fill in the following details about your issued sample.

Some categories may well not apply, but please complete to the highest level of detail possible.

Total number of <u>starting</u> or <u>issued</u> names/addresses (gross sample size)	3	3	0	0
- addresses which could not be traced at all selected respondents who could not be traced				
- addresses established as empty, demolished or containing no private dwellings	1	2	4	
- selected respondent too sick/incapacitated to participate				
- selected respondent away during survey period				
- selected respondent had inadequate understanding of language of survey	8	1	8	
- no contact at selected address	5	8	0	
- no contact with selected person	2	0	1	
- personal refusal at selected address	3	3	9	8
- proxy refusal (on behalf of selected respondent)				
- other refusal at selected address	2	4	7	
- - other type of unproductive reaction (please write in full details in the box below)				
- full productive interview (net sample size)	3	2	0	8
- partial productive interview				

More information or Other type of unproductive reaction

Please write in:

70. Here we ask for information about interviewer procedures.

a. Were interviewers paid according to realized cases?

Yes

No

b. Which, if any, of these rules governed how an interviewer approached an address/household?

PLEASE TICK THOSE THAT APPLY

Calls/visits must be made at different times of day

Calls/visits must be made on different days of week

Neither of the above

c. Were interviewers required to make a certain number of calls/ visits before they stopped approaching an address or household?

Minimum number of calls/visits required - please write in number

No minimum call requirement

d. Were any interviews supervised (that is, supervisor accompanies interviewer)?

Yes - please write in approximate proportion     %

No

e. Were any interviews back-checked (e.g. supervisor checks later whether interview conducted)?

Yes - please write in approximate proportion     %

No

71. Please write in the approximate start and end dates of fieldwork.

**D D M M Y Y**

Start date

End date

72. Were any measures of coding reliability employed?

Yes

No

73. Was keying of the data verified?

Yes - please write in approximate level of verification  %

No

74. Were any reliability checks made on derived variables (that is variables constructed on the basis of other variables collected)?

Yes

No

No derived variables

75. Were data checked/edited to ensure that filter instructions were followed correctly?

Yes

No

76. Were data checked/edited for logic or consistency?

Yes

No

77. Were data checked/edited to ensure they fell within permitted ranges?

Yes

No

**If you answered YES for any question from Q72 to Q77, continue with Question 78.  
If you answered NO for all questions Q72 to Q77, continue with Question 79.**

78. Were errors corrected?  
Please tick all that apply.

Yes - individually

Yes - automatically

No - not corrected

79. Were the data weighted or post-stratified?

Yes

→ Question 80

No

→ Question 81

80. Please briefly describe the weighting or post-stratification strategy used.

*Please write in:*

There are two procedures: (1) weighting according to sampling strata; (2) post-survey weighting by weighing rural and urban samples according to the national ratio of rural to urban population.

81. Is a national methods report available for your study?

Yes

No

82. If there is anything you would like to comment on, please do so here.

*Please write in:*

**THANK YOU VERY MUCH**

Other (please write in details)

*Please write in details of problems checked/ticked above:*

Although “adult” means those who are aged 18 or above in the original questionnaire, in the case of Japan, it means those who aged 20 or above. Therefore, the translation was complicated.

The original questions are premised on face-to face method. Some questions do not suite for self-completion method as JGSS conducts. Therefore, those translations into Japanese language were complicated.

The choice “strongly disagree” in answer scales is difficult to translate into Japanese in some questions.

10. What did you do about any problems in translation 1?

*Please enter details:*

JGSS choose the best translation based on group discussion. However, some translations were left with unnatural Japanese.

11. Was the questionnaire for language 2 ...? (answer only if you have two or more translations/languages, otherwise continue with question 39)

a written translation (a questionnaire/application)  → Question 12

an oral translation (interviewer translated on the spot)  → Question 18

12. Who carried out translation 2? Please tick all that apply.

A member or members of the research team

A translation bureau

One or more specially trained translators

Other (please write in details)

*Please write in details of problems checked/ticked above:*

38. What did you do about any problems in translation 5?

*Please enter details:*

39. What data collection methods were used for the module (substantive and background questions)?

Face-to-face

Self-completion (with some interviewer involvement in delivering or collecting)

'Mixed mode': part self-completion, part face-to-face (please write in details)

Other (please write in details)

*If 'mixed mode' or other, please write in:*

Face-to face method was applied to the questions which asked about complicated issues such as family structure, occupation and so on. On the contrary, self-completion method was applied to those questions on attitudes and everyday behaviors which can be answered easily.

40. Were postal or telephone components used at any point (e.g., advance contacts)?

Yes - postal  → Question 41

Yes - telephone  → Question 41

No  → Question 42

41. Please give details of the postal and/or telephone components.

*Please enter details:*

42. Were incentives offered?

Yes

No

43. How was the study fielded in your country?

As an individual survey (that is, the EASS was the whole survey)  → Question 46

As part of a larger survey  → Question 44

44. Please provide information about the other stud(ies) the EASS was fielded with (e.g., topic, survey name).

*Please enter:*

Japanese General Social Survey 2006 (JGSS-2006)

45. What was the approximate position of the EASS in the larger questionnaire?

Start of questionnaire

Middle of questionnaire

End of questionnaire

46. Were the substantive questions in the EASS study all asked in the prescribed order?

Yes  → Question 48

Yes, apart from omissions  → Question 47

No  → Question 47

47. Why was the question order changed?

*Please enter:*  
JGSS uses both interview and placement method. Therefore, the order and forms of questions differ from those of the original questionnaire. Values of some variables are constructed from responses to two or more questions.

48. Were all the core questions included in your questionnaire (by core we mean all required substantive and background questions)?

Yes - all substantive questions and background questions included  → Question 50

No - substantive question(s) missing  → Question 49

No - required background question(s) missing  → Question 49

49. Please provide details of the questions missing and indicate why they are missing.

Reason(s) why missing:

Here we ask questions on sampling.

50. First, was your sample designed to be representative of ...

Only adult citizens of your country?

Adults of any nationality residing in your country?

51. Second, was your sample designed to be representative of ...

Only adults living in private accommodation?  → Question 52

Adults living in private and in institutional accommodation  
(e.g., residential homes for the elderly, asylum accommodation)?

If private and institutional, please enter details in box below.

<i>Please enter in:</i>
-------------------------

52. Third, what was the lower age cut-off for your sample?

WRITE IN :

53. Was there any upper age cut-off for your sample?

Yes - please write in cut-off

No cut-off

54. Were any groups excluded or under-represented in your sample design, apart from the age cut-offs or citizenship requirements just asked about?

No

Yes (please write in details)

<i>If yes, write in details:</i>
----------------------------------

55. Did you use any variables for stratification?

Yes  → Question 55(56?)

No  → Question 56(57?)

56. Please describe the stratification variables used?

<i>Please write in:</i> Region: Hokkaido or Tohoku, Kanto, Chubu, Kinki, Chugoku or Shikoku, Kyusyu Population size of cities/ districts: large cities, medium-sized cities, small cities, towns/ villages
--

57. How many of stages does your sampling design have?

- One stage
- Two stages
- Three stages
- Four stages

58. Does your sampling frame consist of...?

- Addresses
- Households
- Named individuals (the target persons)
- Named individuals (not the target persons)
- Areas
- Something else (please write in details)

---

59. Please describe your sampling frame (e.g., population register, electoral roll, telephone directory and its coverage and updating).

*Please write in:*  
Sampling frame is electoral roll of every municipality. This sampling frame includes all Japanese adults and is updated at any time within several months.

60. Please describe your sampling method and your sampled units for the first stage?

*Please write in:*  
The Census tract is used as a sampling unit for the first stage. In accordance with the probability proportional to the population of each Census tract, 526 tracts were randomly sampled.

61. Please describe your sampling method and your sampled units for the second stage?  
(only if you have two or more stages, otherwise continue with question 64)

*Please write in:*  
Sampling unit for the second stage is an individual. About 15 people were randomly sampled from each tract which had been sampled at the first stage.

62. Please describe your sampling method and your sampled units for the third stage?  
(only if you have three or more stages, otherwise continue with question 64)

*Please write in:*

63. Please describe your sampling method and your sampled units for the fourth stage?  
(only if you have four stages, otherwise continue with question 64)

*Please write in:*

64. What selection method was used to identify a respondent?  
Please tick all that apply. (do not answer if your sampling frame consists of named individuals  
- which are the target persons. Then continue with question 66)

Kish grid

Last (or next) birthday

Quota

Other (please write in details)

---

65. Please describe your quota procedures. (only if you used quota, otherwise continue with question 66)

*Please write in:*

66. Was substitution or replacement permitted at any stage of your selection process  
or during fieldwork?

Yes  →Question 67

No  →Question 68

67. Please provide details of the substitution or replacement procedures used.

*Please write in:*  
 In the case that a sampled municipality refused the reference of the electoral roll, the municipality was replaced to another municipality which is located at the same region and has similar size of population. Such replacement occurred quite rarely.

68. All in all, what are the known limitations (biases) of your net sample?  
 For example: is there differential coverage of particular groups, either because of sample design or response differences?

*Please write in:*  
 Some nonresponse biases exist in the net sample. The sample has fewer rates of males, youths in their 20s and 30s, and residents of big cities compared with the population.

69. Please fill in the following details about your issued sample.

Some categories may well not apply, but please complete to the highest level of detail possible.

- |   |   |   |   |   |
|---|---|---|---|---|
| Total number of <u>starting</u> or <u>issued</u> names/addresses (gross sample size)      | 3 | 9 | 9 | 8 |
| - addresses which could not be traced at all selected respondents who could not be traced | 2 | 3 | 0 |   |
| - addresses established as empty, demolished or containing no private dwellings           |   |   |   |   |
| - selected respondent too sick/incapacitated to participate                               | 1 | 1 | 8 |   |
| - selected respondent away during survey period   |   | 5 | 4 |   |
| - selected respondent had inadequate understanding of language of survey                  |   |   |   |   |
| - no contact at selected address  |   |   |   |   |
| - no contact with selected person   | 7 | 6 | 6 |   |
| - personal refusal at selected address  | 1 | 0 | 4 | 0 |
| - proxy refusal (on behalf of selected respondent)  |   |   |   |   |
| - other refusal at selected address   |   |   |   |   |
| - other type of unproductive reaction (please write in full details in the box below)     |   | 3 | 6 |   |
| - full productive interview (net sample size)   | 2 | 1 | 3 | 0 |
| - partial productive interview  |   | 8 | 0 |   |

More information or Other type of unproductive reaction

*Please write in:*  
 It was not able to visit because of the automatically lockable apartment. A sampled individual has already died, etc.

70. Here we ask for information about interviewer procedures.

a. Were interviewers paid according to realized cases?

Yes

No

b. Which, if any, of these rules governed how an interviewer approached an address/household?

*PLEASE TICK THOSE THAT APPLY*

Calls/visits must be made at different times of day

Calls/visits must be made on different days of week

Neither of the above

c. Were interviewers required to make a certain number of calls/ visits before they stopped approaching an address or household?

Minimum number of calls/visits required - please write in number

No minimum call requirement

d. Were any interviews supervised (that is, supervisor accompanies interviewer)?

Yes - please write in approximate proportion  %

No

e. Were any interviews back-checked (e.g. supervisor checks later whether interview conducted)?

Yes - please write in approximate proportion  %

No

71. Please write in the approximate start and end dates of fieldwork.

**D D M M Y Y**

Start date

End date

72. Were any measures of coding reliability employed?

Yes

No

73. Was keying of the data verified?

Yes - please write in approximate level of verification  %

No

74. Were any reliability checks made on derived variables (that is variables constructed on the basis of other variables collected)?

Yes

No

No derived variables

75. Were data checked/edited to ensure that filter instructions were followed correctly?

Yes

No

76. Were data checked/edited for logic or consistency?

Yes

No

77. Were data checked/edited to ensure they fell within permitted ranges?

Yes

No

**If you answered YES for any question from Q72 to Q77, continue with Question 78.  
If you answered NO for all questions Q72 to Q77, continue with Question 79.**

78. Were errors corrected?  
Please tick all that apply.

Yes - individually

Yes - automatically

No - not corrected

79. Were the data weighted or post-stratified?

Yes

→ Question 80

No

→ Question 81

80. Please briefly describe the weighting or post-stratification strategy used.

*Please write in:*

Although we did not use weighted sampling, our dataset includes a variable 'WEIGHT'. This variable adjusts the sampling error and the nonresponse bias. The distribution of respondents' sex and 10-year age group in the weighted dataset corresponds to that of the population on October 1, 2006 which was estimated by the government based on the 2005 Census.

81. Is a national methods report available for your study?

**I don't know what 'a national methods report' is.**

Yes

No

82. If there is anything you would like to comment on, please do so here.

*Please write in:*

**THANK YOU VERY MUCH**

Other (please write in details)

*Please write in details of problems checked/ticked above:*

38. What did you do about any problems in translation 5?

*Please enter details:*

39. What data collection methods were used for the module (substantive and background questions)?

Face-to-face

Self-completion (with some interviewer involvement in delivering or collecting)

'Mixed mode': part self-completion, part face-to-face (please write in details)

Other (please write in details)

*If 'mixed mode' or other, please write in:*

40. Were postal or telephone components used at any point (e.g., advance contacts)?

Yes - postal  → Question 41

Yes - telephone  → Question 41

No  → Question 42

41. Please give details of the postal and/or telephone components.

*Interviewers often made telephone calls to the respondents to explain why and how they want to conduct the interview as well as to make interview schedules.*

42. Were incentives offered?

Yes

No

43. How was the study fielded in your country?

As an individual survey (that is, the EASS was the whole survey)  → Question 46

As part of a larger survey  → Question 44

44. Please provide information about the other stud(ies) the EASS was fielded with (e.g., topic, survey name).

*Two topical modules-  
2006 ISSP 'Role of Government' and 2006 EASS 'Families in East Asia'-  
were fielded as part of the 2006 KGSS*

45. What was the approximate position of the EASS in the larger questionnaire?

Start of questionnaire

Middle of questionnaire

End of questionnaire

46. Were the substantive questions in the EASS study all asked in the prescribed order?

Yes  → Question 48

Yes, apart from omissions  → Question 47

No  → Question 47

47. Why was the question order changed?

*Please enter:*

48. Were all the core questions included in your questionnaire (by core we mean all required substantive and background questions)?

Yes - all substantive questions and background questions included  → Question 50

No - substantive question(s) missing  → Question 49

No - required background question(s) missing  → Question 49

49. Please provide details of the questions missing and indicate why they are missing.

*Reason(s) why missing:*

Here we ask questions on sampling.

50. First, was your sample designed to be representative of ...

Only adult citizens of your country?

Adults of any nationality residing in your country?

51. Second, was your sample designed to be representative of ...

Only adults living in private accommodation?  → Question 52

Adults living in private and in institutional accommodation  
(e.g., residential homes for the elderly, asylum accommodation)?

If private and institutional, please enter details in box below.

*Please enter in:*

52. Third, what was the lower age cut-off for your sample?

WRITE IN :

53. Was there any upper age cut-off for your sample?

Yes - please write in cut-off

No cut-off

54. Were any groups excluded or under-represented in your sample design, apart from the age cut-offs or citizenship requirements just asked about?

No

Yes (please write in details)

*If yes, write in details:*

55. Did you use any variables for stratification?

Yes  → Question 55

No  → Question 56

56. Please describe the stratification variables used?

*Please write in:*

57. How many of stages does your sampling design have?

- One stage
- Two stages
- Three stages
- Four stages

58. Does your sampling frame consist of...?

- Addresses
- Households
- Named individuals (the target persons)
- Named individuals (not the target persons)
- Areas
- Something else (please write in details)
- 

59. Please describe your sampling frame (e.g., population register, electoral roll, telephone directory and its coverage and updating).

Residential Household Registers created by our Center's own group of independent samplers

60. Please describe your sampling method and your sampled units for the first stage?

:  
A total of 200 sample blocks across the country are distributed to 16 Do's or Si's (provincial level) in terms of PPS principle.

61. Please describe your sampling method and your sampled units for the second stage?  
(only if you have two or more stages, otherwise continue with question 64)

Dong's or Myun's(ward level) are selected proportionate to the number of blocks assigned to each province.

62. Please describe your sampling method and your sampled units for the third stage?  
(only if you have three or more stages, otherwise continue with question 64)

:  
One Tong-Ban or Ri (final sample block) is randomly selected  
→ 12~13 households are randomly selected  
→ A list of adult members aged 18 or over is made with their dates of birth in it  
→ Finally, of those included in the list, the person whose birthday (month and date) comes the last in the year is selected as the respondent.

63. Please describe your sampling method and your sampled units for the fourth stage?  
(only if you have four stages, otherwise continue with question 64)

*Please write in:*

64. What selection method was used to identify a respondent?  
Please tick all that apply. (do not answer if your sampling frame consists of named individuals - which are the target persons. Then continue with question 66)

Kish grid

Last (or next) birthday

Quota

Other (please write in details)

---

65. Please describe your quota procedures. (only if you used quota, otherwise continue with question 66)

*Please write in:*

66. Was substitution or replacement permitted at any stage of your selection process or during fieldwork?

Yes  → Question 67

No  → Question 68

67. Please provide details of the substitution or replacement procedures used.

Please write in:

68. All in all, what are the known limitations (biases) of your net sample?  
For example: is there differential coverage of particular groups, either because of sample design or response differences?

Please write in:

69. Please fill in the following details about your issued sample.

Some categories may well not apply, but please complete to the highest level of detail possible.

Total number of <u>starting</u> or <u>issued</u> names/addresses (gross sample size)	2	5	0	0
- addresses which could not be traced at all selected respondents who could not be traced				
- addresses established as empty, demolished or containing no private dwellings	0	0	3	3
- selected respondent too sick/incapacitated to participate	0	0	0	0
- selected respondent away during survey period	0	0	0	0
- selected respondent had inadequate understanding of language of survey	0	0	0	0
- no contact at selected address	0	0	0	0
- no contact with selected person	0	0	9	8
- personal refusal at selected address	0	5	0	7
- proxy refusal (on behalf of selected respondent)	0	1	9	8
- other refusal at selected address	0	0	0	0
- other type of unproductive reaction (please write in full details in the box below)	0	0	0	0
- full productive interview (net sample size)	1	6	0	5
- partial productive interview	0	0	2	6

More information or Other type of unproductive reaction

**1) Nobody in the household fitted our sample criteria (Korean national aged 18 or over): Total 25 cases**  
**2) Reason undeterminable due to the interviewer's underreport: 8 cases**  
 \* Not included in the final sample (most these cases consisted of interviews with old persons or persons with symptoms of mental problems. A handful of these included cases with an indication of sample substitution.

70. Here we ask for information about interviewer procedures.

a. Were interviewers paid according to realized cases?

Yes

No

b. Which, if any, of these rules governed how an interviewer approached an address/household?

*PLEASE TICK THOSE THAT APPLY*

Calls/visits must be made at different times of day

Calls/visits must be made on different days of week

Neither of the above

c. Were interviewers required to make a certain number of calls/ visits before they stopped approaching an address or household?

Minimum number of calls/visits required - please write in number

No minimum call requirement

d. Were any interviews supervised (that is, supervisor accompanies interviewer)?

Yes - please write in approximate proportion   %

No

e. Were any interviews back-checked (e.g. supervisor checks later whether interview conducted)?

Yes - please write in approximate proportion   %

No

71. Please write in the approximate start and end dates of fieldwork.

**D D M M Y Y**

Start date

End date

72. Were any measures of coding reliability employed?

Yes

No

73. Was keying of the data verified?

Yes - please write in approximate level of verification    %

No

74. Were any reliability checks made on derived variables (that is variables constructed on the basis of other variables collected)?

Yes

No

No derived variables

75. Were data checked/edited to ensure that filter instructions were followed correctly?

Yes

No

76. Were data checked/edited for logic or consistency?

Yes

No

77. Were data checked/edited to ensure they fell within permitted ranges?

Yes

No

**If you answered YES for any question from Q72 to Q77, continue with Question 78.  
If you answered NO for all questions Q72 to Q77, continue with Question 79.**

78. Were errors corrected?  
Please tick all that apply.

Yes - individually

Yes - automatically

No - not corrected

79. Were the data weighted or post-stratified?

Yes  → Question 80

No  → Question 81

80. Please briefly describe the weighting or post-stratification strategy used.

*Please write in:*

81. Is a national methods report available for your study?

Yes

No

82. If there is anything you would like to comment on, please do so here.

*Please write in:*

**THANK YOU VERY MUCH**

Face-to-face

Self-completion (with some interviewer involvement in delivering or collecting)

'Mixed mode': part self-completion, part face-to-face (please write in details)

Other (please write in details)

*If 'mixed mode' or other, please write in:*

40. Were postal or telephone components used at any point (e.g., advance contacts)?

Yes - postal  → Question 41

Yes - telephone  → Question 41

No  → Question 42

41. Please give details of the postal and/or telephone components.

*Please enter details:*

POSTAL: All respondents received postcards before the interview to inform them about the survey and coming interview.

TELEPHONE: Telephone contacts were conducted in three phases of the interview:

1. 30% of the respondents were back-checked by supervisors,
2. 20% of those checked in Phase 1 were rechecked by senior supervisors,
3. 85% of all respondents were contacted to help clarify various issues.

42. Were incentives offered?

Yes

No

43. How was the study fielded in your country?

As an individual survey (that is, the EASS was the whole survey)  → Question 46

As part of a larger survey  → Question 44

44. Please provide information about the other stud(ies) the EASS was fielded with (e.g., topic, survey name).

*Please enter:*

Taiwan Social Change Survey, the Second Phase of the Fifth Wave.  
Other topics in the TSCS survey: Class identification and Cultural values.

45. What was the approximate position of the EASS in the larger questionnaire?

Start of questionnaire

Middle of questionnaire

End of questionnaire

46. Were the substantive questions in the EASS study all asked in the prescribed order?

Yes  → Question 48

Yes, apart from omissions  → Question 47

No  → Question 47

47. Why was the question order changed?

*Please enter:*

48. Were all the core questions included in your questionnaire (by core we mean all required substantive and background questions)?

Yes - all substantive questions and background questions included  → Question 50

No - substantive question(s) missing  → Question 49

No - required background question(s) missing  → Question 49

49. Please provide details of the questions missing and indicate why they are missing.

Reason(s) why missing:

Here we ask questions on sampling.

50. First, was your sample designed to be representative of ...

Only adult citizens of your country?

Adults of any nationality residing in your country?

51. Second, was your sample designed to be representative of ...

Only adults living in private accommodation?  → Question 52

Adults living in private and in institutional accommodation  
(e.g., residential homes for the elderly, asylum accommodation)?

If private and institutional, please enter details in box below.

*Please enter in:*

52. Third, what was the lower age cut-off for your sample?

WRITE IN :

53. Was there any upper age cut-off for your sample?

Yes - please write in cut-off

No cut-off

54. Were any groups excluded or under-represented in your sample design, apart from the age cut-offs or citizenship requirements just asked about?

No

Yes (please write in details)

*If yes, write in details:*

55. Did you use any variables for stratification?

Yes

→Question 55 (56?)

No

→Question 56 (57?)

56. Please describe the stratification variables used?

*Please write in:*

The following variables are used to stratify the population frame into seven levels of regions: Population density, educational background, the proportion of population over age of 65, the proportion of population between age 15 and 64, the proportion of industrial employment as the total employment, and the proportion of service sector employment as the total employment.

57. How many of stages does your sampling design have?

- One stage
- Two stages
- Three stages
- Four stages

58. Does your sampling frame consist of...?

- Addresses
- Households
- Named individuals (the target persons)
- Named individuals (not the target persons)
- Areas
- Something else (please write in details)
- 

59. Please describe your sampling frame (e.g., population register, electoral roll, telephone directory and its coverage and updating).

*Please write in:*

Official population registration records

60. Please describe your sampling method and your sampled units for the first stage?

*Please write in:*

Deciding the number of respondents to be interviewed in proportion to the size of each of the seven levels of regions (as described in question #56).

61. Please describe your sampling method and your sampled units for the second stage? (only if you have two or more stages, otherwise continue with question 64)

*Please write in:*

For the second stage of the sampling, the number of townships is decided for each level of regions and is randomly selected from each level. Two districts or villages then are randomly selected from each chosen township.

62. Please describe your sampling method and your sampled units for the third stage?  
(only if you have three or more stages, otherwise continue with question 64)

*Please write in:*

For the third stage about 20 to 25 individuals are randomly selected from the selected districts or villages from the second phase.

63. Please describe your sampling method and your sampled units for the fourth stage?  
(only if you have four stages, otherwise continue with question 64)

*Please write in:*

64. What selection method was used to identify a respondent?

Please tick all that apply. (do not answer if your sampling frame consists of named individuals - which are the target persons. Then continue with question 66)

Kish grid

Last (or next) birthday

Quota

Other (please write in details)

The respondent is randomly selected from the target districts or villeges.

65. Please describe your quota procedures. (only if you used quota, otherwise continue with question 66)

*Please write in:*

66. Was substitution or replacement permitted at any stage of your selection process or during fieldwork?

Yes  →Question 67

No  →Question 68

67. Please provide details of the substitution or replacement procedures used.

*Please write in:*

68. All in all, what are the known limitations (biases) of your net sample?  
For example: is there differential coverage of particular groups, either because of sample design or response differences?

*Please write in:*

Some of the target respondents do not live in the household of their registered address.

69. Please fill in the following details about your issued sample.

Some categories may well not apply, but please complete to the highest level of detail possible.

Total number of <u>starting</u> or <u>issued</u> names/addresses (gross sample size)	5	0	3	2
- addresses which could not be traced at all selected respondents who could not be traced	1	7	7	
- addresses established as empty, demolished or containing no private dwellings		7	0	
- selected respondent too sick/incapacitated to participate		9	8	
- selected respondent away during survey period	2	4	6	
- selected respondent had inadequate understanding of language of survey			0	
- no contact at selected address	9	5	0	
- no contact with selected person	6	1	2	
- personal refusal at selected address	6	1	4	
- proxy refusal (on behalf of selected respondent)		8	8	
- other refusal at selected address		6	3	
- other type of unproductive reaction (please write in full details in the box below)			8	
- full productive interview (net sample size)	2	1	0	2
- partial productive interview			0	

More information or Other type of unproductive reaction

*Please write in:*

70. Here we ask for information about interviewer procedures.

a. Were interviewers paid according to realized cases?

Yes

No

b. Which, if any, of these rules governed how an interviewer approached an address/household?

*PLEASE TICK THOSE THAT APPLY*

Calls/visits must be made at different times of day

Calls/visits must be made on different days of week

Neither of the above

c. Were interviewers required to make a certain number of calls/ visits before they stopped approaching an address or household?

Minimum number of calls/visits required - please write in number 3

No minimum call requirement

d. Were any interviews supervised (that is, supervisor accompanies interviewer)?

Yes - please write in approximate proportion 33 %

No

e. Were any interviews back-checked (e.g. supervisor checks later whether interview conducted)?

Yes - please write in approximate proportion 30 %

No

71. Please write in the approximate start and end dates of fieldwork.

**D D M M Y Y**

Start date 160706

End date 160806

72. Were any measures of coding reliability employed?

Yes

No

73. Was keying of the data verified?

Yes - please write in approximate level of verification 100 %

No

74. Were any reliability checks made on derived variables (that is variables constructed on the basis of other variables collected)?

Yes

No

No derived variables

75. Were data checked/edited to ensure that filter instructions were followed correctly?

Yes

No

76. Were data checked/edited for logic or consistency?

Yes

No

77. Were data checked/edited to ensure they fell within permitted ranges?

Yes

No

**If you answered YES for any question from Q72 to Q77, continue with Question 78.  
If you answered NO for all questions Q72 to Q77, continue with Question 79.**

78. Were errors corrected?  
Please tick all that apply.

Yes - individually

Yes - automatically

No - not corrected

79. Were the data weighted or post-stratified?

Yes  → Question 80

No  → Question 81

80. Please briefly describe the weighting or post-stratification strategy used.

*Please write in:*

81. Is a national methods report available for your study?

Yes

No

82. If there is anything you would like to comment on, please do so here.

*Please write in:*

**THANK YOU VERY MUCH**
