

I . 5 Study Monitoring Questionnaire

TSCS

Details of Your Institute

1a. Please enter the name of your institute and your country:

Institute: Country:

1b. Please enter the name of the principal investigator and your contact person for questions about the study:

Principal Investigator: Contact Person:

2a. What kind of institute fielded the module?

- An institute principally doing market research
- An institute principally doing academic research
- An institute doing both market and academic research
- Other (please write in details)

2b. Which institute carried out the fielding?

PI's institute itself OR Institute name:

Questionnaire Languages

3a. Was the questionnaire fielded ...

- only in English → Question 12
- in English plus other language(s) → Question 3b
- only in translation → Question 3b

3b. Please enter the language(s) the module was fielded in.

Please write in: Chinese

Translation

Note: If your translation process was different for different languages, please answer questions 4 to 10 for your most common practice and note any differences for other languages in question 11.

4. Was the questionnaire ...?

a written translation (a questionnaire/application) → Question 5

an oral translation (interviewer translated on the spot) → Question 11

5. Who carried out translation? Please tick all that apply.

A member or members of the research team

A translation bureau

One or more specially trained translators

Other (please write in details)

6. Was translation checked?

Yes, all of the questionnaire → Question 7

Yes, only the new questions → Question 7

No → Question 8

7. How was translation checked?

Group discussion

Expert checked it

Back translation

Other (please write in details)

Please write in:

8. Was the translation questionnaire pre-tested?

Yes

No

9. Were there any questions, sections, words or concepts which caused problems when translating? Please tick all that apply.

No problems →Question 11

Answer scales

Instructions

Whole questions

Words or concepts

Other (please write in details)

Please write in details of problems checked/ticked above:

10. What did you do about any problems in translation?

Please enter details:

11. If your translation process was different for different languages, please note any differences for other languages in the box below.

Please enter details:

12. How was the study fielded in your country?

As an individual survey (that is, the EASS was the whole survey) →Question 15

As part of a larger survey →Question 13

13. Please provide information about the other stud(ies) the EASS was fielded with (e.g., topic, survey name).

Please enter:

Taiwan Social Change Survey: 2018, Questionnaire II Culture and Globalization in East Asia

14. What was the approximate position of the module in the larger questionnaire?

Start of questionnaire

Middle of questionnaire

End of questionnaire

15. Were the substantive questions in the module all asked in the prescribed order?

Yes → Question 17

Yes, apart from omissions → Question 17

No → Question 16

16. Why was the question order changed?

Please enter:

Most questions were asked in the prescribed order. Only a few questions' order was changed in order to incorporate the question items in the TSCS module.

17. Were all the core questions included in your questionnaire (by core we mean all required substantive and background questions)?

Yes – all questions and background questions included → Question 19

No – substantive question(s) from module missing → Question 18

No – required background question(s) missing → Question 18

18. Please provide details of the questions missing and indicate why they are missing.

The TSCS did not include the following variables:
n2 v51 v58 v64 v71 v78 v84 v105 v106 v107 tw_rincx

Reason(s) why missing: did not have enough space for the above items

Sampling

19. Was your sample designed to be representative of ...

Only adult citizens of your country?

Adults of any nationality residing in your country?

20. Was your sample designed to be representative of ...

Only adults living in private accommodation? → Question 21

Adults living in private and in institutional accommodation
(e.g., residential homes for the elderly, asylum accommodation)?

If private and institutional, please enter details in box below.

Please enter in:

21. What was the lower age cut-off for your sample?

WRITE IN :

22. Was there any upper age cut-off for your sample?

Yes - please write in cut-off

No cut-off

23. Were any groups excluded or under-represented in your sample design,
apart from the age cut-offs or citizenship requirements just asked about?

No

Yes (please write in details)

If yes, write in details:

24. Did you use any variables for stratification?

Yes → Question 25

No → Question 26

25. Please describe the stratification variables used?

Please write in:

The following variables are used to stratify the population frame into six levels of regions: (1) the proportion of Agriculture, Animal Husbandry, Forestry and Fishing employment as the total employment, (2) the proportion of industrial employment as the total employment, (3) the proportion of supervisors or professionals employment as the total employment, (4) the proportion of population between age 15 and 64, (5) the proportion of population age 65 or older, (6) the proportion of population with bachelor's degree or higher levels of education, (7) population density, (8) population growth for the past 5 years

26. How many of stages did your sampling design have?

One stage

Two stages

Three stages

Four stages

27. Did your sampling frame consist of...?

Addresses

Households

Named individuals (the target persons)

Named individuals (not the target persons)

Areas

Something else (please write in details)

28. Please describe your sampling frame (e.g., population register, electoral roll, telephone directory and its coverage and updating).

Please write in:

Population register

29a. Please describe your sampling method and your sampled units for the first stage?

Please write in:

The number of target respondents is decided for each of the six strata of regions proportionate to the size of their populations.

29b. Please describe your sampling method and your sampled units for the second stage?
(Only if you have two or more stages, otherwise continue with question 30.)

Please write in:

The number of townships is decided for each level of regions and is randomly selected from each level. Villages or “li”s (administrative unit under township) then are randomly selected from each chosen townships

29c. Please describe your sampling method and your sampled units for the third stage?
(Only if you have three or more stages, otherwise continue with question 30.)

Please write in:

The number of respondents is decided for each village or li. Individuals ages 18 or over are randomly selected from household registers in each village or li (administrative unit under township).

29d. Please describe your sampling method and your sampled units for the fourth stage?
(Only if you have four stages, otherwise continue with question 30.)

Please write in:

30. What selection method was used to identify a respondent?

(Do not answer if your sampling frame consists of named individuals – which are the target persons. Continue with question 32.)

Kish grid

Last (or next) birthday

Quota

Other (please write in details)

31. Please describe your quota procedures.

(Only if you used quota, otherwise continue with question 32)

Please write in:

32. Was substitution or replacement permitted at any stage of your selection process or during fieldwork?

- Yes →Question 33
 No →Question 34

33. Please provide details of the substitution or replacement procedures used.

Please write in:

34. All in all, what are the known limitations (biases) of your net sample? For example: is there differential coverage of particular groups, either because of sample design or response differences?

Please write in:
 A non-response bias comes from the use of household registration data in which some household members in fact do not live in the household.

Data Collection

35. What data collection methods were used for the module (substantive and background questions)?

- Face-to-face
 Self-completion (with some interviewer involvement in delivering or collecting)
 'Mixed mode': part self-completion, part face-to-face (please write in details)
 Other (please write in details)

If 'mixed mode' or other, please write in:

36. Please write in the approximate start and end dates of fieldwork.

DD MM YY

Start date

End date

37. Were postal or telephone components used at any point (e.g., advance contacts)?

Yes - postal → Question 38

Yes - telephone → Question 38

No → Question 39

38. Please give details of the postal and/or telephone components.

Please enter details:

We sent postal cards to all sampled individuals for advanced contacts.
About 30% of all respondents were contacted by phone for clarifying certain items in the questionnaires by research assistants of the project.

39. Were incentives offered?

Yes, to respondent

Yes, to interviewer

No, neither to respondent nor to interviewer

Interviewer Procedures

40. Were interviewers paid according to realized cases?

Yes

No

41. Which, if any, of these rules governed how an interviewer approached an address/household?

Tick all that apply

Calls/visits must be made at different times of day

Calls/visits must be made on different days of week

Neither of the above

42. Were interviewers required to make a certain number of calls/ visits before they stopped approaching an address or household?

Minimum number of calls/visits required - please write in number

No minimum call requirement

43. Were any interviews supervised (that is, supervisor accompanies interviewer)?

Yes - please write in approximate proportion % (=0.006)

No

44. Were any interviews back-checked (e.g. supervisor checks later whether interview conducted)?

Yes - please write in approximate proportion %

No

Response and Outcome Information

45. Please fill in the following details about your issued sample.

Some categories may not apply, but please complete to the highest level of detail possible.

Issued sample (n)	Total number of starting or issued names/addresses (gross sample size)	4093
Ineligible (n)	Addresses which could not be traced at all/ selected respondents who could not be traced	111
	Addresses established as empty, demolished or containing no private dwellings	72
	Other ineligible (please specify)	0
Eligible (n)	<i>Issued sample minus Ineligible</i>	3910
Refusal (n)	Personal refusal at selected address	707
	Proxy refusal (on behalf of selected respondent)	117
	Other refusal at selected address	23
Non-contact (n)	No contact at selected address	258
	No contact with selected person	418
Other unproductive (n)	Selected respondent too sick / incapacitated to participate	151
	Selected respondent had inadequate understanding of language of survey	0
	Selected respondent away during survey period	275
	Other type of unproductive reaction (please specify)	0
Valid cases (n)	Full productive interview	1961
	Partial productive interview (50% of the module or more)	0

More information on "Other ineligible":

Please write in:

More information on “Other type of unproductive reaction”:

Please write in:

Coding and Verifying

46. Were any measures of coding reliability employed?

Yes

No

47. Was keying of the data verified?

Yes - please write in approximate level of verification 2 %

No

48. Were any reliability checks made on derived variables (that is variables constructed on the basis of other variables collected)?

Yes

No

No derived variables

49. Were data checked/edited to ensure that filter instructions were followed correctly?

Yes

No

50. Were data checked/edited for logic or consistency?

Yes

No

51. Were data checked/edited to ensure they fell within permitted ranges?

Yes

No

If you answered YES for any question from Q46 to Q51, continue with Question 52.
If you answered NO for all questions Q46 to Q51, continue with Question 53.

52. Were errors corrected?

Tick all that apply

Yes - individually

Yes - automatically

No - not corrected

53. Were the data weighted or post-stratified?

Yes → Question 54

No → Question 55

54. Please briefly describe the weighting or post-stratification strategy used.

Please write in:

Data were weighted using an iterative, proportional raking scheme. Each observation was weighted by gender, age, urbanization, and education level. Weights were then generated to match the population characteristics of Taiwan.

55. Is a national methods report available for your study?

Yes

No

56. If there is anything you would like to comment on, please do so here.

Please write in:

THANK YOU VERY MUCH
